Features

The comfortable, handheld EasyRead™ Illuminated Magnifier will help you see better by magnifying subject matter by 2.5X with bright, Natural Spectrum® Daylight. Two LED bulbs evenly illuminate reading surfaces without glare and the 5X bifocal inset provides additional magnification for seeing the finest of details.

- 2.5X high-quality, optical grade lens with 5X spot lens
- 2 Natural Spectrum LED's
- Easy grip, comfort handle
- Zippered, padded case and lens cloth
- On/Off button
- Easy slide compartment holds 2 AAA batteries (not included)

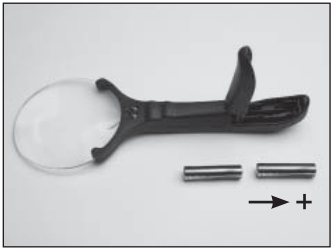
Operation

You have the option of using the EasyRead Magnifier with or without illumination. Simply press the button on the upper left side of the handle once, and the two LED bulbs will illuminate. Press the button a second time to turn them off.

When replacing batteries, please ensure that you only use 2 AAA batteries.

Locate the battery compartment on the underside of the handle. Slide the battery compartment open, tilt the compartment cover upward and remove any dead batteries. Please dispose of batteries in a proper manner to help minimize environmental impact.

Insert 2 AAA batteries into the compartment with the "+" end pointing toward the bottom of the handle. Make sure the "+" and "-" symbols are facing in the correct direction, otherwise the LED's will not operate.



Once the batteries are inserted, lower the compartment cover and slide upward towards the lens until the cover clicks into place.
